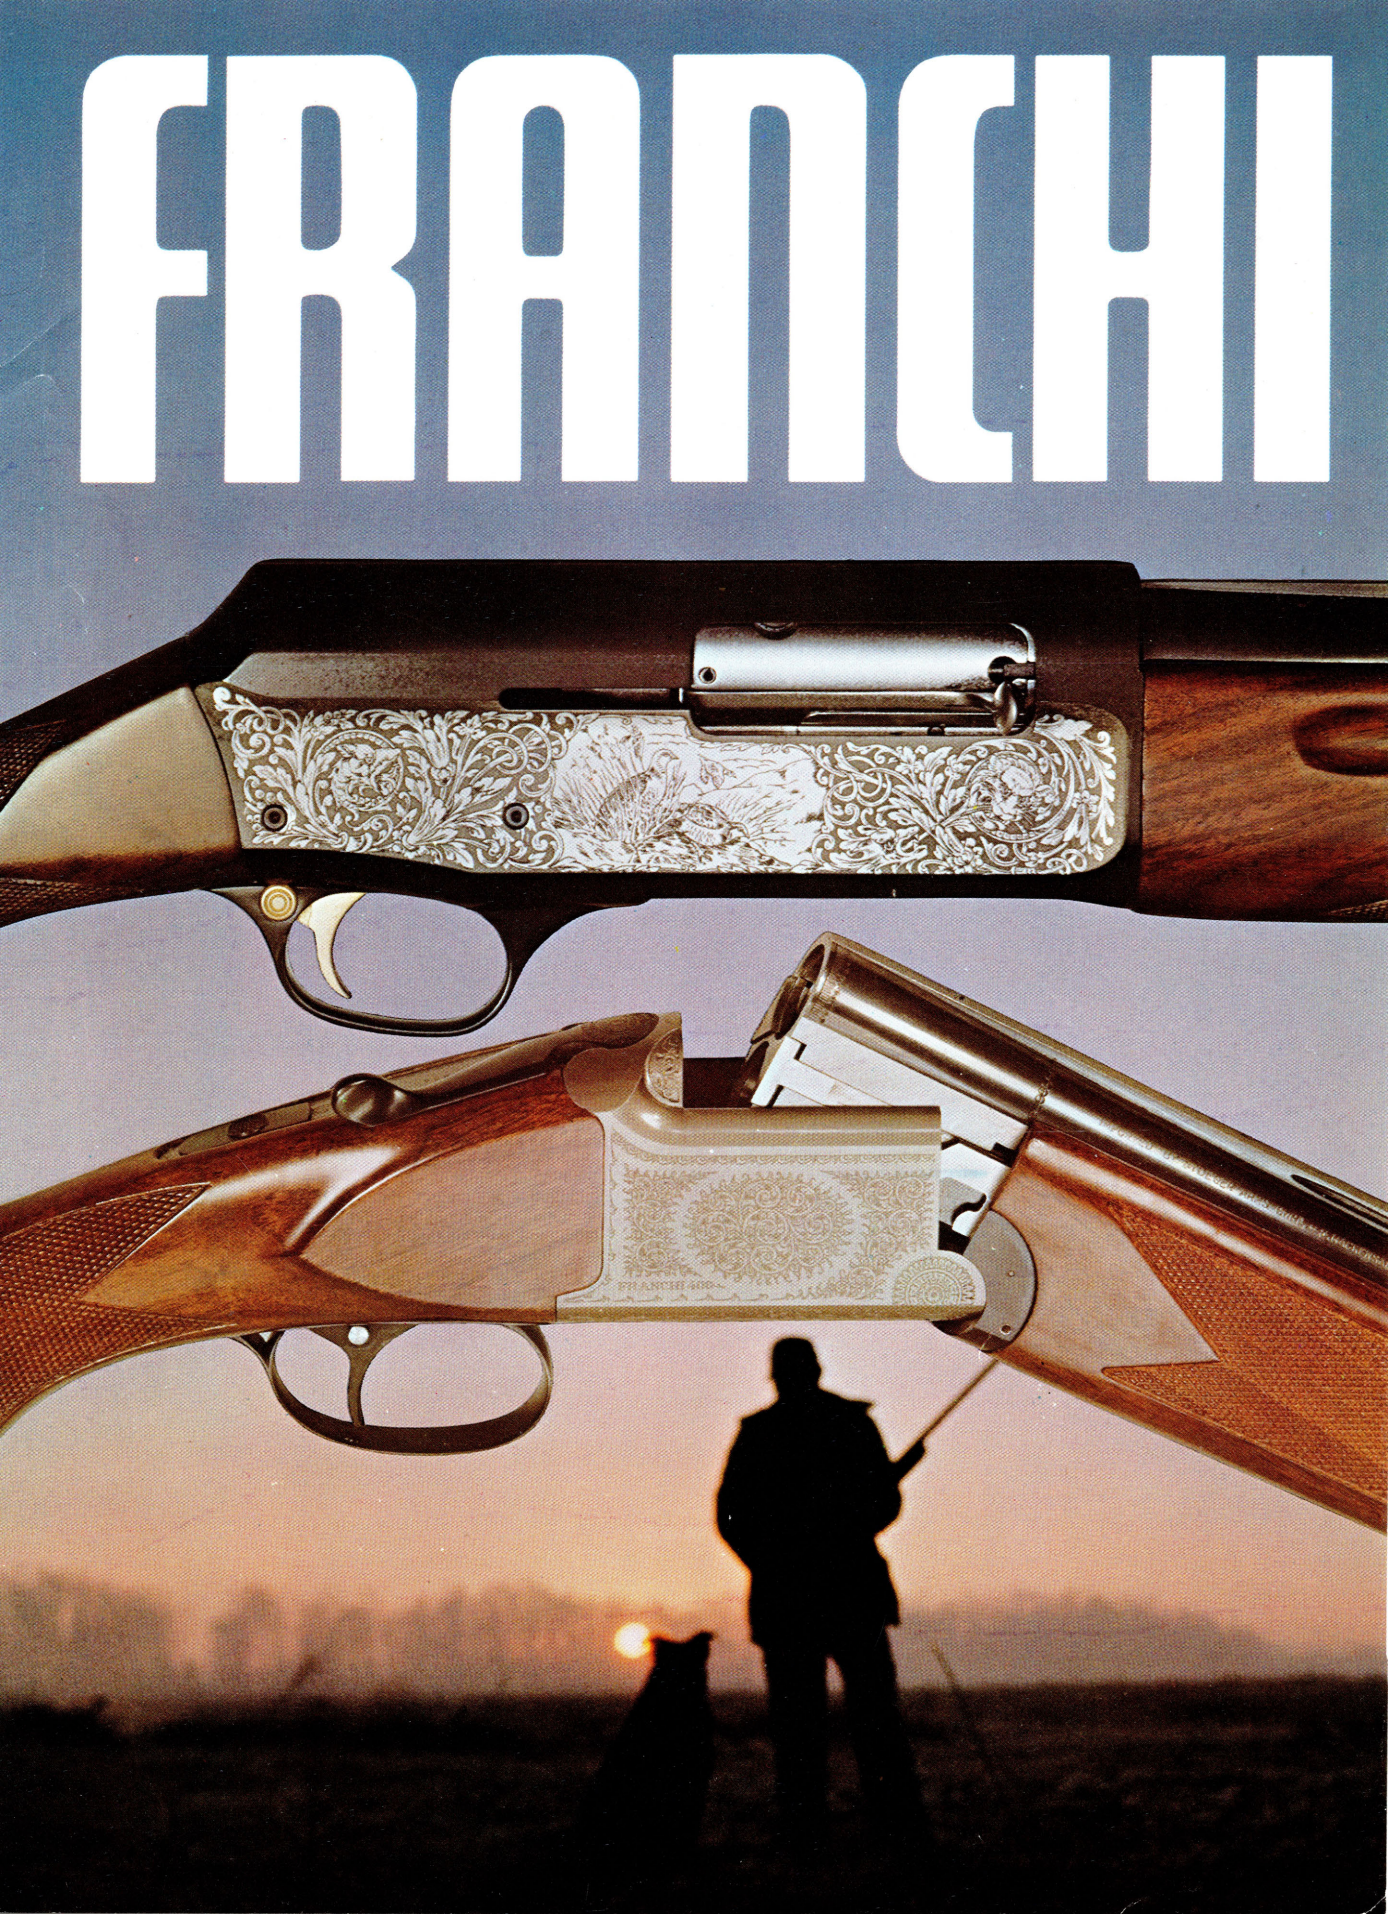
FRANCHI



FRANCHI Over and Unders

Falconet™ series— Ebony. Also available in Buckskin. Both in 12, 16, 20 ga. with million dollar lightweight receiver. Vent-rib.

Falconet™ series— Silver. 12 ga. Vent-rib.

Peregrine™ series— Model 451. 12 ga. with million dollar lightweight receiver. Vent-rib.

Peregrine™ series— Model 400. 12 ga. with steel receiver. Vent-rib.

Peregrine™ series— Model 3003. International Trap and Skeet. 12 ga. Vent-rib. With recoil pad.

FRANCHI Automatics

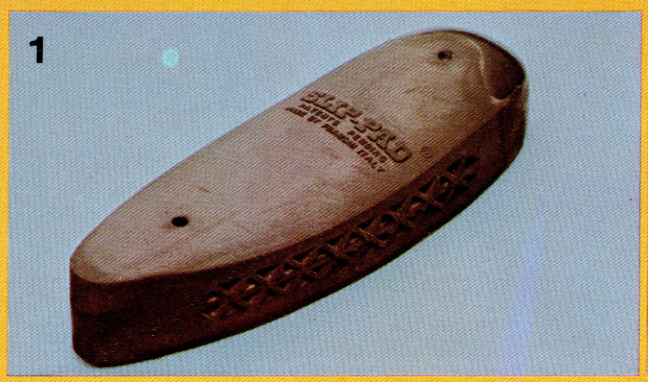
Standard auto—12, 20 ga. Vent-rib or plain.
28 ga. Vent-rib
3″ Magnum in 12, 20 ga. Vent-rib or plain.

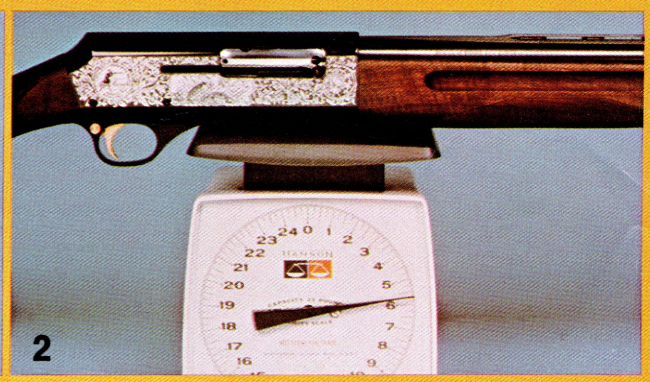
Slug Gun—12, 20 ga. with adjustable sights.

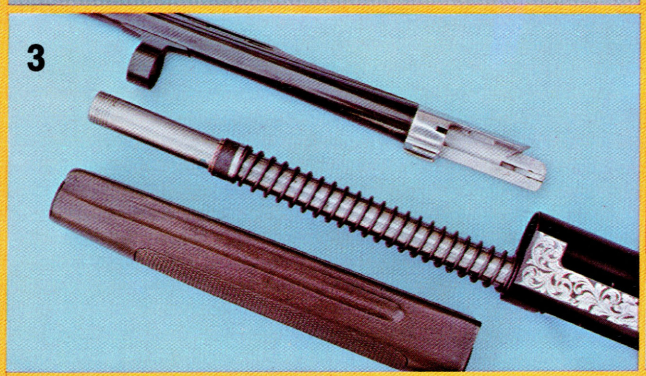
Hunter auto—12, 20 ga. Vent-rib.

Eldorado—12, 20 ga. Vent-rib.

10 OUTSTANDING FEATURES OF THE FRANCHI AUTOMATICS







1. The exclusive patented Franchi Slip Pad, the frictionless recoil pad that won't catch on clothing as the gun is raised, effectively absorbs recoil. Optional on all 12 ga. models.

2. The world's lightest automatic shotgun (20 ga., 26″ bbl., Eldorado). with the million dollar, guaranteed-for-life receiver. Weight—5¾ lbs. (See Fig. 2)

3. Reliability of the recoil action has yet to be matched. What's more, this action requires no maintenance and no cleaning. (See Fig. 3)

4. The Franchi automatic safety, which securely locks the hammer, is silent and positive. Hand-safety can be reversed for left handed shooters. (See Fig. 4)

5. Deluxe Eldorado and Hunter Models with beautifully engraved receivers. (See Fig. 5)

6. Chrome lined barrel. (See Fig. 6)

7. Exclusive, million dollar receiver with life-time guarantee.

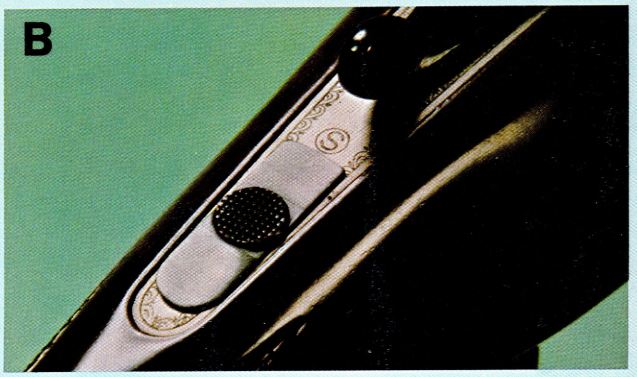
8. For hunters seeking extra power to bring down high-flying ducks & geese, 12 and 20 ga. are available in 3″ magnum.

9. Buttstocks and forends cut from carefully selected European walnut for light weight with maximum strength.

10. Every Franchi automatic is registered as proof-fired with loads far exceeding required specifications.

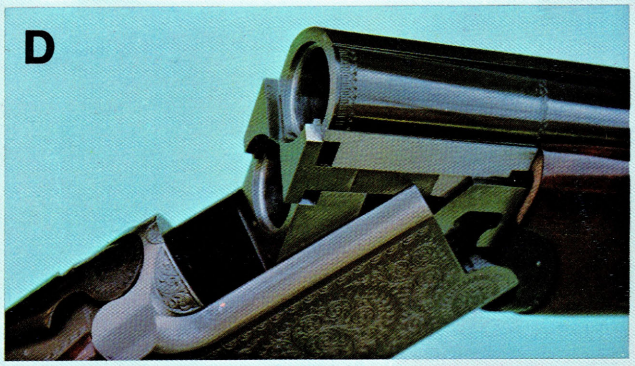
11 NOTABLE FEATURES OF THE FRANCHI OVER AND UNDERS

A

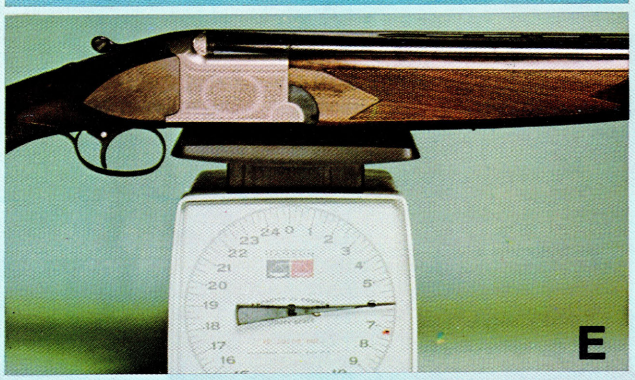


B

C



D



E

F

1. Real hand-cut checkering for functional beauty and individuality. (See Fig. A)

2. A tang safety independent of any other function for positive action and reliability. On Peregrine models only. (See Fig. B)

3. Trigger mechanism is unified assembly independent of floor plate, assuring consistency of pull. Peregrine models only. (See Fig. C)

4. Total surface contact between barrel walls and frame for extreme rigidity. Peregrine models only. (See Fig. D)

5. Choice of steel or lightweight, guaranteed-for-life receiver. Model 451 is lightest O/U 12 ga. in the world. (See Fig. E)

6. Selective auto ejector.

7. Firing sequence selector button on trigger for instant accessibility. On Peregrine models only. (See Fig. F)

8. Full length one piece rib from muzzle to breech face to provide a totally flat, uninterrupted sighting plane. The top of rib is machine cut with transverse grooves to assure maximum light deflection.

9. Coil spring powered extractors for the ultimate in reliable extraction and ejection. Peregrine models only.

10. Chrome-molly blued steel bbls. with chrome-plated bores for long life and reduced shot deformation.

11. Side walls extend to center line of top bbl. for maximum lateral support. Peregrine models only.

FRANCHI

Nothing offers more convincing evidence of traditional old world craftsmanship than the admirable quality of Franchi firearms. Throughout the centuries the trend in gun production has been toward reduced weight with increased power. Today, no other gun has met this objective so successfully as the Franchi, which is acknowledged as the lightest shotgun in the industry. Just to look at them is an esthetic pleasure. And to experience their perfect balance; to appreciate their superbly finished wood and steel; and finally, to enjoy them in the field is to recognize gun excellence at its maximum.

SPECIFICATIONS FOR FRANCHI AUTOMATIC SHOTGUNS:

STYLE: 5-shot automatic shotgun.

GAUGES: 12, 20 & 28 gauges (chambered for all 2¾" shells). 12 & 20 gauge Magnum (chambered for 3" Magnum shells).

BARREL: Hard chrome-lined barrel. Extra barrel is interchangeable within gauge except Magnum. Slug-gun barrel comes equipped with fully adjustable rifle-type sights.

BARREL LENGTHS & CHOKES AVAILABLE FOR FRANCHI AUTOMATICS:

Plain Barrel	22" (cyl.) Slug	24" **** I.C.	24" *** Mod.	26" **** I.C.	26" *** Mod.	26" (sk) Skeet	28" *** Mod.	28" * Full	30" * Full	32" * Full

Std. 28					X			X		
Mag. 12										X
Mag. 20								X		

OVER-ALL LENGTH: 47½" with 28-inch barrel.

SAFETY: Convenient lateral push button safety. Removal of two lateral pins, located through the receiver, permits the trigger-safety-lifter mechanism to be removed as a single unit.

STOCK: Genuine walnut stock and forend with fully machine cut checkered pistol grip and fore-grip. Magnum models come equipped with factory fitted recoil pad. Optional on other 12 gauge models.

STANDARD STOCK DIMENSIONS: 14" length of pull, 1½" drop at comb; 2¼" drop at heel.

AVERAGE WEIGHT: 12 gauge—6 lbs., 4 ozs.; 20 & 28 gauge—5 lbs., 2 ozs.; 12 gauge Magnum—8 lbs., 4 ozs.; 20 gauge Magnum—6 lbs. Overall weight may vary slightly depending on density of wood.

Note: All Franchi automatic shotguns are supplied with 3-shot plug to conform with migratory bird laws, where applicable.

▪ Deluxe Grades use same barrels as Standard Grade although former usually with ventilated rib. (Star count stamped in barrel denotes choke.)

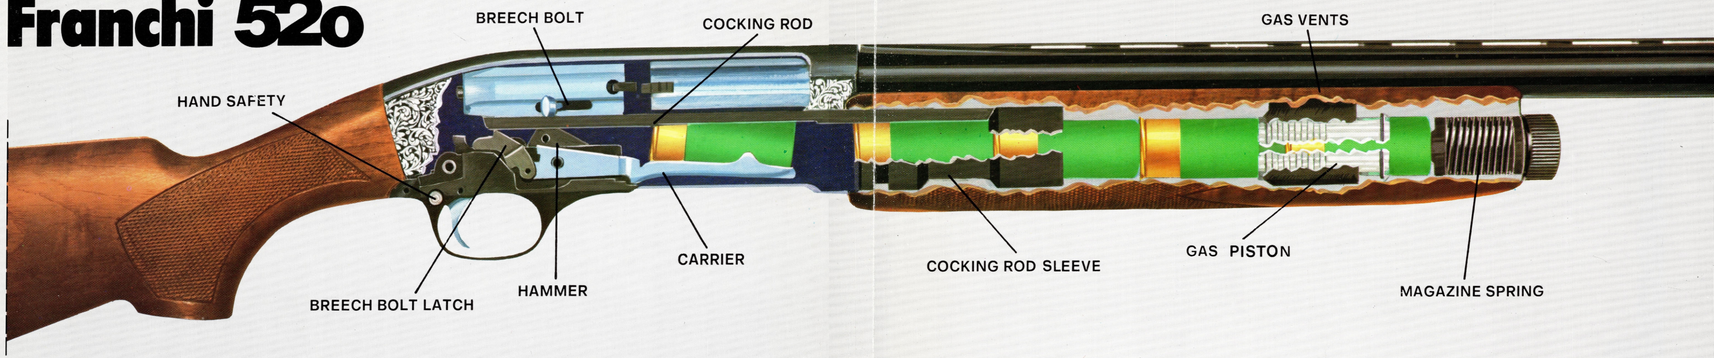
Franchi 520
Gas Operated Shotgun

Franchi 520

A new jewel of Franchi perfection

The new Franchi 520 gas-operated automatic shotgun: perfect to the last detail; safe, incredibly strong, well balanced and of elegant line. And there's the classic Franchi dependability, too. In short, the 520 is the best modern technology can offer and the most demanding shooter desire.



Smoothness and strength

The Franchi 520 has a fixed barrel. The reloading operation is entirely carried out by the gas-piston-breech bolt system.
This means absence of vibration thus smooth functioning during the « firing-ejection-reloading » phases.

Fantastic firing speed

The Franchi 520 has an extremely fast cycling time: it fires, ejects and reloads in less than 120 thousandths of a second!

Easier loading

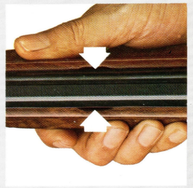
Loading of the Franchi 520 is made easier by a new system that does not require unlocking the carrier to fill the magazine.

Completely isolated magazine

The Franchi 520 is the only shotgun with its magazine completely isolated from the gas, thus preventing carbon deposits which could affect functioning.

Smooth, noiseless cocking

As the breech bolt is practically the only moving part (the barrel is fixed), the Franchi 520 is a shotgun with easy ejection and extremely smooth cocking. Moreover, there is less recoil, an advantage particularly appreciated on the 'trap and skeet range were a great number of shots are fired.



New improved system of gas expulsion

In the Franchi 520 the gas used for loading is expelled through two vents located between the forend and barrel in a position that does not disturb the shooter.

Adapter

Removable « plug » to comply with Federal regulation regarding the hunting of migratory waterfowl. Converts four-round magazine capacity to two.

Increased firing volume

The Franchi 520 can accommodate five 2-3/4 inch shotshells when not in conflict with State or area regulations.

Gas tight piston

The manufacturing precision attained by Franchi has made it possible to produce such a perfect all-steel piston that no rubber or plastic gasket is necessary to prevent gas leak.

Ease of disassembling

There are four main units in the Franchi 520: Stock-receiver, barrel, breachbolt-cocking rod, and forend. The gun can be easily disassembled into these four units without any tools, in less than 15".

Test

Each shotgun is accompanied by a test certificate of the Italian National Proof House.

GENERAL CHARACTERISTICS

Finish:	**semi-gloss**
Stock and forend:	**selected walnut-checkered pistol grip**
Drop at heel:	**2" - 2 1/16" - 2 1/4"**
Barrels:	**26 inches and 28 inches with ventilated rib.**
Gauge:	**12**
Chamber:	**2 3/4"**
Weight:	**Approx. 7 pounds**

CHOKES

26 inch. vent. rib. barrel Imp., Cyl., Mod.
28 inch. vent. rib. barrel Mod., Imp/Mod., Full.

Absolute precision

Franchi barrels are as perfect as ultra-modern manufacturing techniques can make them. Knowledgeable shooters know that Franchi barrels deliver maximum velocity (less friction) and uniform patterns. Franchi barrels feature:

- Special cold hammering process of chrome-moly steel to obtain perfect choking.
- Coaxial reaming to obtain a uniform wall thickness along the entire length.
- Internal lapping to give a spectacular finish for less friction to shot column.
- Inside hard chrome lining to assure the maximum protection from rust and corrosion for unlimited barrel life.

Franchi 520
The perfect shotgun

Reliable:
The high level of manufacturing know-how and long experience in the field of firearms make the Franchi 520 a lifetime investment.

Efficient:
Franchi shotgun barrels are the finest production barrels in the world. And the same precision patterning ability of the famous Franchi target models is also guaranteed to the Franchi 520.

Rugged:
The limited number of moving parts, the fixed barrel, the use of very high quality materials, the manufacturing accuracy make the Franchi 520 an exceptional gun for its ruggedness and durability.

Perfectly balanced:
Because of its ideal weight (approx. 7 pounds), obtained by using special materials, and its modern, slender lines, the Franchi 520 carries easily, shoulders easily, **shoots** easily!

Interchangeable Barrels.

One of the most significant advantage of the Franchi Automatic is the complete interchangeability of barrels within a given gauge. No factory fitting is required - simply remove one barrel and install the other.

In this way it is possible to attain maximum versatility by having two barrels - one, a short improved cylinder barrel for skeet or small game at close range; the other, a full choked long barrel for ducks or for hunting in open country where the game tends to flush far in front of the hunter. Bear in mind that only standard 23/4 inch chambered 12 gauge barrels can be installed on standard 12 gauge guns, and only standard 20 gauge barrels can be installed on 20 gauge guns.

Magnum Barrels with 3 inch chambers cannot be used in standard gauge (23/4-inch) guns: similarly, standard gauge barrels cannot be used in Magnum guns.

GENERAL STATEMENT OF POLICY

Licensed firearms dealers and distributors may purchase Stoeger exclusive firearms and related merchandise at the price shown in this list. Those having an adequate commercial credit rating may apply for open account privileges. Because credit clearance takes approximately three weeks to finalize, it is advisable to apply for same well before the need for it arises. Those who do not have an open account with us may order on a "check-with-order" basis (preferred) or on a "C.O.D." basis.

Damages, Guarantees, Returns, etc.

Returns. The dealer or distributor has thirty days (from date of Shipment) to return unwanted merchandise, providing said merchandise is in factory new condition, and in original carton, when received at our warehouse providing return shipment os made prepaid. "Collect" freight shipments are automatically refused by our receiving personnel. If Stoeger had made an error in filling the orders, the return shipment still must be made via prepaid freight but Stoeger will reimburse you for shipping expenses when crediting your account.

After thirty days, no return will be accepted by our Service Department without the prior written permission of our Sales or Service Manager. Also, goods returned for credit or refund after thirty days, will be subject to 20% Service Charge.

Damaged and Pilfered Merchandise: When a shipment is received that shows obvious signs of damage, the distributor should keep the deliverer present while the carton is opened and inspected. If contents are damaged, he should note that fact on all copies of the bills of lading, and have the carrier sign his name (not initials) in a clearly legible fashion. You should then notify carrier's office without delay, stating that you intend to file a claim for the damages. You should also notify Stoeger's Service Manager at the same time so we can help you pursue your claim. Technically, title of goods transfers to you as soon as a shipment leaves our warehouse. Consequently, you must take positive steps to prevent losses. Every incoming shipment should be unpacked immediately and contents compared with packing list. Stoeger cannot be held responsible for losses through damage or pilferage in transit.

License Requirements:

All new Stoeger customers must submit with their first order for handguns a photocopy of their license enabling them to resell firearms to the public. Stoeger of Canada Ltd. may sell only wholesale. Licensed private individuals are requested to see their local dealer.

Freight Program:

All firearms orders totalling 3 or more shotguns will be shipped prepaid. Orders totalling less than 3 shotguns will be shipped F.O.B. our warehouse.

All handgun orders totalling $275.00 or more in invoice value will be shipped prepaid at Stoeger's expense. All orders totalling less than $275.00 are shipped F.O.B. our warehouse.

Credit Approval:

All new accounts must submit with their first order two trade references as well as their bank reference.

Guarantees:

All merchandise that is subject to a guarantee is packed with an appropriate guarantee card. This card must be filled out and returned to Stoeger by the consumer within ten days of the date of retail purchase. If the guarantee is not so filed it is rendered invalid.

Service Charge:

All firearms returned for service out-of-guarantee are subject to a minimum service charge of $2.50. All claims for repairs or adjustments under the guarantee should be made direct to the Stoeger Service Department by the consumer.

N.B.:

Other Franchi products will be available in the near future, at which time all Franchi customers will be notified.
